*"In the spring, at the end of the day,  
you should smell like dirt."*

-- Margaret Atwood, Bluebeard's Egg

With that beautiful sentiment, I welcome you to High Country Roses' new Rose Resource Guide. I hope this finds you happy, healthy, and smelling like dirt. We are so grateful for you, our customers, who have supported this company since 1970. In the over 50 years we've been in business, we've grown a lot of roses and seen a lot of change.

This year is no different and one such change is this new Rose Resource Guide. We will no longer be publishing an annual catalog, but instead will maintain and update an annual Rose Resource Guide. Each year we add dozens of new roses and it was simply becoming more difficult and expensive to include all of them in a print catalog. In addition to including all of our beautiful roses, we've also included resources on rose care.

As always, complete descriptions of all of our roses are available on our website: [www.HighCountryRoses.com](http://www.HighCountryRoses.com). The website includes all of our roses and a blog designed to communicate with our customers and deliver gardening advice. When searching for roses, you can filter by type, hardiness zone, color, bloom type, bloom repeat, and/or fragrance.

Since our founding over 50 years ago by Dr. Bill Campbell, through generations of family management, we strive for constant improvement at High Country Roses. That mission encompasses everything we do from the quality of the plants we deliver, to this resource guide, to your website buying experience, and the fulfillment of our yearlong guarantee. If you ever have an issue, call me directly and let me know about it.

Happy gardening and  
here's to another year of smelling like dirt!

Matt and Jennifer Douglas and Family

## History of Roses

Today's roses are descended from ancient plants. Fossil evidence from Colorado's Florissant Fossil Beds dates back 32 to 40 million years and some paleo botanists suggest that roses could be as old as 70 million years. The development of the rose is closely tied to the history of civilization, from prehistoric time through the Roman Empire, the Middle Ages, the Victorian Era, and into the present, roses have always been important to humans. The thousands of varieties of roses available today are categorized into rose classes, according to their history, parentage, and growth habits based on American Rose Society ([www.ars.org](http://www.ars.org)) guidelines. We have organized our catalog into three primary categories:

- **Species Roses** (starting on page 7)
- **Old Garden Roses** (starting on page 11)
- **Modern Roses** (starting on page 28)

Species Roses are naturally occurring varieties from which all other roses have been bred. They tend to be vigorous and hardy plants that may, or may not, need a human caretaker. They are amazing specimens ideal for xeric gardening, habitat formation, and keeping pesky neighbors away. Every garden needs at least one.

Old Garden Roses, also known as Heirloom or Antique Roses, are defined as those varieties introduced to cultivation prior to 1867. Included in this group are early English and European roses as well as varieties originating throughout the Middle East and even the Isle of Bourbon. Their extraordinary forms and fragrances are often matched by great vigor and hardiness.

Modern Roses, are varieties developed after the year 1867 and the introduction of the first Hybrid Tea Rose "La France." These roses were developed by crossing European roses with China and Tea Roses from the Far East, which, though more tender, brought the characteristics of repeat bloom and greater color selection to rose breeding. Today, that breeding has resulted in an abundance of wonderful and versatile roses for gardens around the world.

High Country Roses has a two-part mission: to preserve and protect Old Garden and Species Roses in commerce and provide our customers with high-quality hardy Modern Roses well suited for tougher growing conditions. This catalog lists over 500 varieties that we hope you will find fulfill that mission.

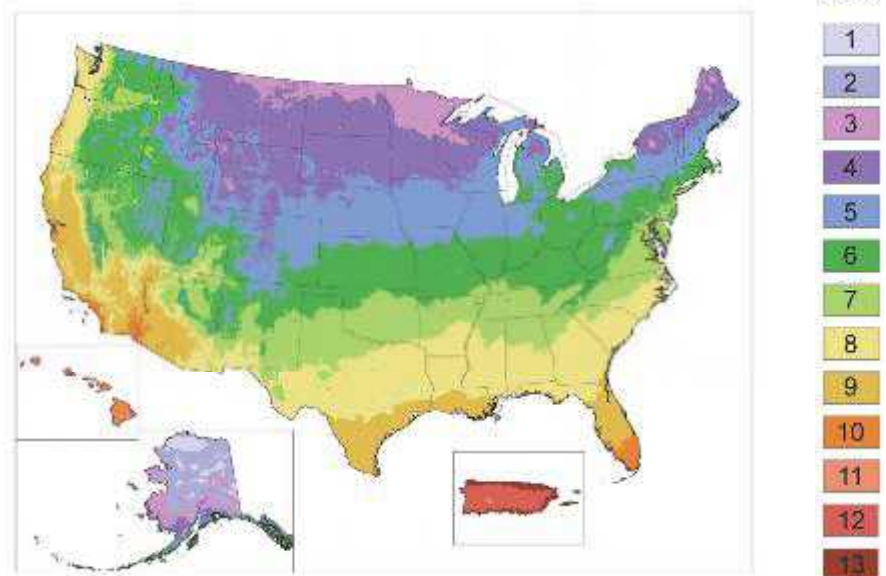

## Own Root Roses

All of our roses are grown on their own roots, which means that they are grown directly from cuttings and not grafted onto a different rootstock. There are several benefits to purchasing own-root roses as compared to grafted roses which are typically sold at large retail outlets.

## USDA Cold Hardiness Zone

High Country Roses uses USDA zones as a guide to a plant's maximum cold tolerance.

Generally speaking, a variety is safe to grow in any zone warmer than the listed USDA zone.

## Planting And Growing Information

Thank you for shopping on our website. Our roses are selected for their hardiness, beauty, and durability in your landscape. They are grown on their own roots, not grafted onto another rootstock, so while they are initially smaller than the average grafted plant, they quickly catch up in size and tend to be much hardier in the long run.

## Hardening Off the Roses

High Country Roses are grown in containers and may be held in the pots for several days until you are ready to plant them. Depending on the season, they may or may not have leaves. If the roses are dry when they arrive, please water them thoroughly, but don't allow them to sit in water. To acclimatize your roses to their new home, they should be hardened off for several days before planting them. Expose them to sun and wind for a few hours at first, increasing the length of time each day. Be careful not to let the roses dry out, but avoid over-watering.

## Planting

The planting site for your roses should receive at least 5 to 6 hours of sun daily. As roses are long-term investments, soil preparation is very important. It is best to add 1 part compost, prepared planting mix, or aged manure to 2 parts of your garden soil. Loosen an area at least 36" wide and 18" deep, then plant the rose at soil level or slightly deeper (1 to 2 inches) than it was in the pot to add stability. Gently loosen the roots before planting if they are tight. Since High Country Roses are grown on their own roots, there is no graft or bud union to be taken into consideration when planting them. After they are planted, we recommend using two to three inches of mulch on the surface of the soil to conserve moisture, reduce weeds and encourage healthy root growth.

## Watering and Fertilizing

After planting, water the roses in well. Slow, deep watering is best, repeated every three days at first (depending on your local conditions), then less frequently as they become established. An inch of water per week is recommended, whether from rain or irrigation. Roses need excellent drainage, so avoid waterlogged soil. Fertilize with a water-soluble fertilizer two weeks after planting in spring, then once or twice a month thereafter. A slow release fertilizer may be applied at the beginning of the growing season if you prefer. Stop fertilizing six weeks before you expect frost as the roses need to harden off for the winter.

## Spraying

We try to specialize in roses that are relatively disease resistant, but there are occasional problems with pests that might arise. Often, a simple spray with water, being sure to hit the undersides of the leaves, will keep pest populations at a minimal level. We've also had good results using insecticidal soaps. Do not spray Rugosa roses as their leaves are very sensitive and many types of sprays may cause them to defoliate.

## Winter Protection

Most young roses need some winter protection until they become established. After the leaves begin to drop or night-time temperatures are consistently below 30 degrees, pile soil, compost or mulch 6 to 12" high around the base of the bush. For tender roses, or in the most severe climates, you may want to wrap the plant with burlap for added protection against drying winds. If the winter is dry, water the roses about once a month.

## Pruning Roses

For the first 2 or 3 years, prune only the dead wood from the plant. If the rose is a type that blooms only once in the spring, wait until after it is finished blooming to prune. If the rose blooms repeatedly throughout the season, prune when the leaves begin to emerge in the spring. To encourage open growth in your rose, make all cuts about a quarter inch above a leaf bud that points out from the center of the bush. As your rose matures, thin out a third of the oldest canes at ground level. Also remove any branches that cross or grow inward. To encourage new blooms during the season, “deadhead”, or remove spent blooms from the bush by pinching off the bloom just above a leaflet. Some people prefer cutting the stem just above the first outward-facing leaf with 5 (or more) leaflets. Late in the season, leave the flowers on the rose to encourage hip formation and aid the plant in hardening off for winter.

Enjoy your roses! We hope that they will bring you years of pleasure in your garden. Thank you.

## VISIT OUR GREENHOUSE

Come visit our greenhouse facility in Broomfield, Colorado.

We love to have visitors, but our greenhouse hours vary and we ask that you contact us before your visit to schedule an appointment.

# SPECIES ROSES

These are the original rose varieties found in nature from which all the others have been bred. They are vigorous bushes that generally thrive on neglect and tend to be exceptionally hardy. The flowers are usually single (with only five petals) and commonly appear only in spring and early summer. They carry their fertile hips into the winter, providing food for birds and winter color. The year given indicates when the rose was first known in cultivation.

SPECIES ROSES

**ROSA ACICULARIS**

**ZONE:** 2  
**SIZE:** H: 3-7FT W: 3-4FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK-DEEP  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 MODERATE FRAGRANCE

**ROSA ARKANSANA**

**ZONE:** 4  
**SIZE:** H: 1-4FT W: 3-4FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK-DEEP  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 MODERATE FRAGRANCE

**ROSA BANKSIAE**

**ZONE:** 7  
**SIZE:** H: 10FT W: 6FT  
**BLOOM TYPE:**  
 DOUBLE (17-25 PETALS)  
**COLOR:** WHITE  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 NO FRAGRANCE

**ROSA BANKSIAE LUTEA**

**ZONE:** 7  
**SIZE:** H: 8-20FT W: 5-8FT  
**BLOOM TYPE:**  
 DOUBLE (17-25 PETALS)  
**COLOR:** YELLOW  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 NO FRAGRANCE

**ROSA BLANDA**

**ZONE:** 3  
**SIZE:** H: 6FT W: 6FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK- MEDIUM  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA CANINA (DOG ROSE)**

**ZONE:** 3  
**SIZE:** H: 3-15FT W: 3-6FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** WHITE BLEND  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA CAROLINA**

**ZONE:** 5  
**SIZE:** H: 4-5FT W: 3-4FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK- MEDIUM  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA EGLANTERIA**

**ZONE:** 4  
**SIZE:** H: 4-6FT W: 4-6FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK-LIGHT  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 MODERATE FRAGRANCE

**ROSA FOETIDA BICOLOR  
(AUSTRIAN COPPER)**

**ZONE:** 3  
**SIZE:** H: 6-8FT W: 5-20FT  
**BLOOM TYPE:**  
SINGLE (4-8 PETALS)  
**COLOR:** RED BLEND  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
LIGHT FRAGRANCE

**ROSA FOETIDA PERSIANA  
(PERSIAN YELLOW)**

**ZONE:** 4  
**SIZE:** H: 5-6FT W: 5-6FT  
**BLOOM TYPE:**  
SEMI-DOUBLE (9-16 PETALS)  
**COLOR:** YELLOW  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
LIGHT FRAGRANCE

**ROSA GALLICA  
OFFICINALIS  
(APOTHECARY ROSE)**

**ZONE:** 4  
**SIZE:** H: 3-4FT W: 3-4FT  
**BLOOM TYPE:**  
SEMI-DOUBLE (9-16 PETALS)  
**COLOR:** PINK- DEEP  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
MODERATE FRAGRANCE

**ROSA GALLICA  
VERSICOLOR  
(ROSA MUNDI)**

**ZONE:** 4  
**SIZE:** H: 3-4 FT W: 3-4FT  
**BLOOM TYPE:**  
SEMI-DOUBLE (9-16 PETALS)  
**COLOR:** PINK BLEND  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
MODERATE FRAGRANCE

**ROSA GLAUCA**

**ZONE:** 2  
**SIZE:** H: 6-9FT W: 5-6FT  
**BLOOM TYPE:**  
SINGLE (4-8 PETALS)  
**COLOR:** PINK-LIGHT  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
NO FRAGRANCE

**ROSA HUGONIS  
(FATHER HUGO ROSE)**

**ZONE:** 5  
**SIZE:** H: 7-9FT W: 5-6FT  
**BLOOM TYPE:**  
SINGLE (4-8 PETALS)  
**COLOR:** YELLOW- LIGHT  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
LIGHT FRAGRANCE

**ROSA LAEVIGATA**

**ZONE:** 7  
**SIZE:** H: 10-16 FT W: 8-15 FT  
**BLOOM TYPE:**  
SINGLE (4-8 PETALS)  
**COLOR:** WHITE  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
STRONG FRAGRANCE

**ROSA MOYESII**

**ZONE:** 5  
**SIZE:** H: 8-10FT W: 5-6 FT  
**BLOOM TYPE:**  
SINGLE (4-8 PETALS)  
**COLOR:** PINK  
**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
NO FRAGRANCE

**ROSA NUTKANA  
(NOOTKA ROSE)**

**ZONE:** 3  
**SIZE:** H: 4-5FT W: 4-5FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA PALUSTRIS**

**ZONE:** 3  
**SIZE:** H: 4-8FT W: 3-4FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 MODERATE FRAGRANCE

**ROSA POMIFERA  
(APPLE ROSE)**

**ZONE:** 5  
**SIZE:** H: 6-7FT W: 6-7FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK-LIGHT  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA PTERACANTHA**

**ZONE:** 5  
**SIZE:** H: 4-8 T W: 4-6FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** WHITE  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA PULVERULENTA**

**ZONE:** 4  
**SIZE:** H: 2-3FT W: 2-3FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** PINK- LIGHT  
**BLOOM REPEAT:**  
 ONE-TIME BLOOM  
**FRAGRANCE:**  
 LIGHT FRAGRANCE

**ROSA RUGOSA ALBA**

**ZONE:** 4  
**SIZE:** H: 4-6FT W: 4-6FT  
**BLOOM TYPE:**  
 SINGLE (4-8 PETALS)  
**COLOR:** WHITE

**BLOOM REPEAT:**  
ONE-TIME BLOOM  
**FRAGRANCE:**  
MODERATE FRAGRANCE

# OLD GARDEN ROSES

Old Garden Roses (also known as “Heirloom” or “Antique Roses”) are the classic old-fashioned roses developed in England, Europe, and the Middle East prior to the introduction of roses in China and the Far East in 1867. They typically are very fragrant, bloom heavily in spring (though some repeat bloom) and are most often found in shades ranging from white and pale pink to burgundy.

## ALBA ROSES

The Albas and their hybrids are known as the “White Roses” of Shakespeare, though their blossoms range in color from pure white to shades of pink. They are vigorous, hardy and very disease resistant. Their fragrant, abundance of blooms in spring are often followed by showy, red hips that persist through winter. Bluish-green foliage and upright growth habit make them a fine backdrop for other roses.

**ALBA MAXIMA**

**ZONE:** 3  
**SIZE:**  
H: 6-8FT W:4-6FT  
**BLOOM TYPE:**  
DOUBLE (17-25 PETALS)

# BOURBON ROSES

The Bourbon Roses first appeared in the early 1800's on the Isle of Bourbon (now Réunion) in the Indian Ocean. They were the probable offspring of the China and Damask Roses used to edge farmers' fields. They bear large, full, fragrant blooms that generally repeat throughout the season. Most are hardy in Zone 5, though can survive in colder climates with protection.

# CENTIFOLIA ROSES

The Centifolias were made famous by the Dutch painters of the 17th Century. Referred to as “hundred-petaled” roses, or Cabbage Roses, they are one-time bloomers noted for the fullness and size of their flowers. Normally tall shrubs with arching growth, a few are compact with smaller blossoms. All are very hardy.

# CHINA AND TEA ROSES

China and Tea Roses were brought from the Far East by sea traders in the late 1700's. Though not hardy in cold winter areas, they brought repeat blooming, the pointed bud form and a wider range of colors to rose breeders, leading to the development of modern Hybrid Teas.

# DAMASK ROSES

These hybrids of *Rosa damascena* are among the most ancient of garden roses. Cultivated by the Romans, they might have died out in medieval times but for the European monasteries that grew roses for medicinal purposes. They are known for fragrance and abundant June flowering. Historically, the petals were used for making potpourri and rosary beads. Damasks grow in an upright and airy form, until the weight of the blooms causes the canes to arch over.

# GALLICA ROSES

Like the Damasks, the Gallicas were also known from ancient Rome and survived the fall of that empire by becoming naturalized wherever they had been planted. They became very popular in France in the 19th century and many new varieties were developed. They are known for their purplish-red hues and tendency to sport blossoms with stripes, hence the expression 'The Mad Gallicas.' Very hardy, they tolerate poor soil and neglect. They spread by suckering, but are not invasive. The dark green foliage often turns a lovely purple-red in the fall.

# HYBRID PERPETUALS & PORTLANDS

Favorites of the Victorian Era representing some of the earlier attempts to induce repeat bloom in rose varieties, the roses in this class have large, full flowers and exceptional fragrance. Most have a heavy flush of blooms in late spring, followed by later cycles of fewer blooms. They are hardy plants that grow into sturdy, upright bushes of medium height.

OLD GARDEN ROSES

# MOSS ROSES

The Moss Roses are sports of Damasks and Centifolias, bred mostly in the mid-eighteen hundreds, though the type was recognized as early as 1696 in France. Named for the mossy appearance of the tiny hairs on flower buds and sepals, they are hardy roses with an upright habit and fragrant blossoms.

MODERATE FRAGRANCE

Though many of our “modern roses” may seem quite old, the term is used to denote roses hybridized after 1867 when the first Hybrid Tea, “La France,” was introduced. Early Hybrid Teas were developed by crossing European roses with China and Tea roses from the Far East, which, though more tender, brought the characteristics of repeat bloom and greater color selection to rose breeding. The roses we know today often have very complex parentage as efforts are made to produce roses that bloom continuously, are fragrant, and come in myriad colors.

## CLIMBING AND RAMBLING ROSES

These roses vary from tall self-supporting shrubs to flexible-caned plants that need to be trained to climb. They include large-flowered climbers as well as ramblers that have large sprays of small blooms. All can be trained to grace a wall or a fence with a solid display of blooms or can form stunning pillars. As most bloom on lateral shoots, for the best display bend the canes to grow diagonally or horizontally.

# FLORIBUNDA AND SMALL SHRUB ROSES

Complex crosses between Polyanthas, Hybrid Teas and Species Roses have given rise to these 'many-flowered' roses. They are characterized by compact growth and large clusters of blossoms from summer through late fall.

# HARDY CANADIAN ROSES

The Canadian Explorer, Parkland, and Artist Series roses are the fruits of an ambitious hybridizing program from Agriculture Canada. These roses are developed to be tough and reliably hardy in Zones 3 and 4. Many do well in severe climates with no more protection than a good layer of snow. The varieties flower nicely through the season and require minimal care. They are found in several rose classes, including Rugosas, Shrub Roses and Climbers.

# HYBRID MUSK ROSES

Of varied parentage, the roses known as Hybrid Musks are known for their immense clusters of sweetly fragrant flowers borne from mid-summer through fall, as well as their tolerance for light shade. The glossy foliage shows good resistance to disease in warm, moist climates as well as in cold regions. In colder climates, they are generally grown as medium-sized shrubs, while in warmer regions they may be grown as ramblers or climbers.

MODERN ROSES

# MEDIUM AND LARGE SHRUB ROSES

Coming from a wide range of origins, the shrub rose category includes a variety of roses with diverse characteristics that do not easily fit into any other particular class. Rose hybridizers may cross old roses with modern varieties to achieve a blend of fragrance, repeat bloom, and exceptional hardiness. As a rule, shrub roses have excellent landscape qualities and can be used as ornamental shrubs, specimens, in masses or as hedges outside the formal rose garden.

# MINIATURE ROSES

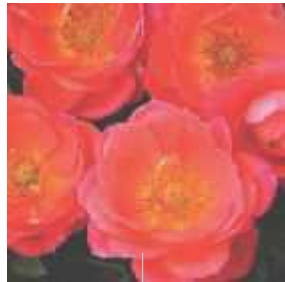

The miniature roses listed here are charming small shrubs which will, with proper care, bloom nearly continuously. Though small in stature, they are surprisingly hardy. The bushes are compact and branching, excellent for borders or in containers. Miniature climbers are similar to other minis in that their blooms and leaves are small, yet they tend to grow longer canes and can be trained to climb on a trellis or low fence.

MODERN ROSES

# POLYANTHA ROSES

These charming, petite shrubs arose from crosses with China roses and Rosa multiflora and will, with proper care, bloom nearly continuously. The bushes are compact and branching, excellent for borders or in containers.

MODERN ROSES

# RUGOSA AND HYBRID ROSES

These offspring of the species *Rosa rugosa* are valued for their great hardiness, fragrant, recurrent bloom and often, large, showy hips. The characteristic rugose foliage is deeply veined and crinkly green. Rugosas have little need for fungicides; better to avoid spraying and possible damage to the foliage. Most varieties prefer sandy soils and are salt tolerant. They dislike heavy clay and alkaline soil, though they will thrive if soil is amended with compost.

MODERATE FRAGRANCE

# ORDERING INFORMATION

## The Roses

Our roses are grown and shipped to you in quart (946 cc) size pots, 4½ inches square at the top and 5 inches deep. All are grown on their own roots and are 1 to 2 years old, growing in a peat-based soilless potting mix. Generally speaking plants are between 6" and 12" tall at the time of shipping. Plants are wrapped and pruned to fit in a 16" shipping box. We over-winter our roses in cold greenhouses and they may be dormant or leafed out, depending on the time of year when they are shipped. Since they are growing in containers, they can be planted as soon as you receive them, or stay in their pots for a few days until you are ready. Planting instructions will be included with your shipment of roses.

## How to Order

You may mail or email the order form enclosed, call us toll free, or order online from our secure website: [www.highcountryroses.com](http://www.highcountryroses.com). Be sure to ask if we have any current specials!

## Shipping

We ship roses from March until December, depending on weather and your preferred planting time. Please request a ship week that will ensure that the roses are not subject to hard frosts or excessive heat.

## Shipping Quotes

If you are ordering a large number of plants (generally more than 10), give us a call and we'll be happy to generate a shipping quote for you. Often we can save you a little bit of money on shipping.

## Shipping Materials and Sustainability

Our goal is to minimize the impact of our shipping materials on the environment. All of our shipping materials are either made of recycled material or are recyclable by you. We use biodegradable packaging peanuts to secure the plants in the boxes. Pots are best recycled by planting something new in it.

## When to Order

We try to maintain good supplies of our roses throughout the year. Due to the vagaries of rose propagation, some varieties may be ready to ship in the fall rather than spring, so check with us about our current availability. You may place an order at any time for a future ship date and we will notify you when the roses are ready.

## Wholesale

Prospect wholesale customers and rose societies may request our current wholesale ordering and availability information. Minimum orders apply.

## Gift Certificates

If you're looking for an unusual gift for your rose-loving friends and family members, we will happily provide gift certificates, either for specific roses or a specified dollar amount. Ask us for details.

## Our Guarantee

We hope that you will be exceptionally happy with the quality of our roses. We guarantee our roses to be true to name and healthy when shipped. Planting and growing instructions are included with every shipment. In the rare event that a plant fails, notify us within 1 year of receipt, and you may choose to have a one-time replacement (if available), a credit, or a refund of the price of the plant. Refunds are made in the same manner payment was received. Shipping charges are non-refundable. We cannot be responsible for weather extremes, animal damage, neglect or improper care (such as over/under watering or spray damage).
